## REPORT OF LEE VOLUNTEER FIRE DEPARTMENT FOR 1948

### REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90 per cent of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden with-

out delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

Miss Myrtle Fletcher, R. N., reports for last year that teeth, tonsils, skin, vision, nutrition and posture were the most frequent conditions requiring attention for health correction in the schools. Measles was the most prevalent communicable disease. All children had been vaccinated. The Parent-Teacher Association gave \$75 for dental work, and the Woman's Club has also taken up this project. The school lunch program has been resumed with the aid of a district appropriation, federal aid in cash and commodities, and the devoted help of citizens whose consciences could not be satisfied to see this project languish. The district has joined with others in the supervisory union to purchase a Maico Audiometer to test hearing, and a Massachusetts Vision Test. Both pieces of equipment were recommended for purchase by the state school

health supervisor, on the advice of specialists. The apparatus was demonstrated at the annual meeting of the Joint Board of Supervisory Union No. 44, which was entertained by the Lee School Board April 27th.

In order to avoid overcrowding, which has affected both schools in recent years but is now acute at the Center Shool, and give more attention to individual remedial work, it is necessary either to open North Lee School or send Grades VII and VIII out of town, probably Newmarket. The School Board favors the latter plan, on account of the cross-transportation involved in the former, as well as the increased expense involved, which is approximately \$5,000.00.

Within the next school year, it is probable that the federal government will give general aid to the states (without federal control) for public school purposes, also special aid for school buildings. The latter will presumably go to districts which (like Lee) have plans ready and which have authorized construction. The annual district meeting should provide for immediate acceptance of such an offer when available.

Proposed state legislation for the benefit of education includes:

- 1) Increased state aid to provide for increased costs.
- 2) An improved teachers' retirement law.
- 3) Some special aid for high school transportation.
- 4) State aid for school building.
- 5) A master-plan for cooperative districts.

All of these proposals would benefit Lee directly.

Dr. Hilton C. Buley of New Jersey succeeded Dr. Edgar Fuller as state Commissioner of Education. Dr. Arthur S. Adams became President of the University of New Hampshire, in the neighboring town of Durham. Our teachers attended "workshops" for in-service training in March and September, in Fine Arts

and also Health and Physical education, respectively. The schools need teachers, especially in the elementary field. Some boys and girls from Lee should look forward to this work each year, with the encouragement of parents and teachers.
